

The International Conference on Instrumentation for Colliding Beam Physics (**INSTR 2014**)

February 24 — March 1, 2014

BINP, Novosibirsk, Russia

The International Conference on Instrumentation for Colliding Beam Physics (INSTR 2014) will be held in the Budker Institute of Nuclear Physics, Novosibirsk, Russia from February 24 to March 1, 2014. Since 2012 this conference is in a series of instrumentation conferences held by rotation on Elba (PM or Pisa Meeting on Advanced Detectors), in Vienna (VCI or Vienna Conference on Instrumentation) and Novosibirsk.

SCIENTIFIC PROGRAM

The aim of the Conference is to review the status and progress in instrumentation for experiments at colliding beams and related fields. The main topics include:

- Colliders and detector integration
- Tracking and vertex detectors
- Micropattern gas detectors
- Particle identification
- Calorimetry
- Instrumentation for Astroparticle and Neutrino physics
- Magnet design and development
- Electronics, Trigger and Data Acquisition

The deadline for abstract submission is January 15, 2014.
